

specification

SPECIFICATION

PRODUCT: MONOPROPYLENE GLYCOL

Appearance: Clear, colourless liquid free from visible matter.

Assay: 99.5 % min.

Water Content: 0.2 % max.

Colour (At time of delivery): 10 Hazen max.

Chloride (As Cl): 70 ppm max.

Typical Characteristics

Density: ~1.036 g/ml @ 20 °C

This material is not suitable for use as an ingredient in food, feed, pharmaceutical or cosmetic applications.

This material may be manufactured via hydrolysis of propylene oxide, or by catalytic hydrogenolysis of distilled glycerine.

Last Revised: July 2023
